Macedonian After School Language Learning Program

Breaking News – The Macedonian Community Language School is working with mainstream schools to introduce a new after-school Macedonian language learning program for Kindergarten to Year 12 students. The new Program will provide opportunity for all students to learn a new language. **Why should my child learn an additional language?** Access to two languages from an early age facilitates literacy development. It greatly benefits their reading and writing skills. There are strong links between learning another language and literacy development in English. Students who complete a second language automatically receive bonus points for entry to University. Students develop a broader view of the world providing opportunity to experience other cultures and develop social connections to make friends and enjoy learning. For further information please visit <http://macedoniawa.com.au/mcwa/data/files/Flyer2016b.pdf>. Don't let your child miss out on this perfect opportunity and tell you friends.

Minister Recognises Hard Work Behind New Language Program

Minister Mike Nahan has thanked the Ministerial Advisory Group for Community Languages (MAGCL) for their input into the re-development of the Western Australia Community Languages Program (CLP). The MAGCL provides vital advice on the administration and management of the CLP, as well as facilitating relationships with stakeholders in the education and language sectors. Rebecca Ball, Executive Director, Office of Multicultural Interests said, "The wealth of experience within this committee has helped us develop a program

that is relevant and responsive to the current and future needs of Western Australia's multicultural community and is providing the greatest possible social and economic benefits." The Macedonian Community of WA Inc is represented on this Group and continues to provide valuable advice.
